

Our GutterClad products and bespoke flashings are manufactured in mill finish Aluminium and can then be finished with a polyester powder coating in our factory. See the range of colours we offer as standard from our chart below. Additional colours can be sourced at an additional cost and lead time. Our standard colours are offered in a flat matt finish except for our textured range.

The colours reproduced on this page are for general guidance only. Samples available on request. Please note that there may be some variation in the finished colour due to the nature of the powder coating process.
