

TECHNICAL DATASHEET

C15 Tile Valley Trim

The Kytun™ Tile Valley Trim is designed specifically for use with the Kytun™ C12 Dry Valley Trough in a dry roof valley application.

Due to the high volume of water travelling down the valley a patented water drip and multiple outlet system runs along the trim.

Tile Valley Trim permanently secures tiles on valleys, eliminating the problems traditionally encountered with small tiles pieces falling out.

TECHNICAL DATASHEET C15 TILE VALLEY TRIM

Product Details

The Kytun™ Tile Valley Trim is designed specifically for use with the Kytun™ C12 Dry Valley Trough in a dry roof valley application. Due to the high volume of water travelling down the valley a patented water drip and multiple outlet system runs along the trim.

Tile Valley Trim permanently secures tiles on valleys, eliminating the problems traditionally encountered with small tile pieces falling out.

The components are manufactured from high grade pre-primed polyester coated aluminium.

Product Features

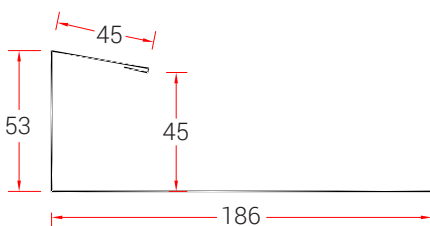

- Provides full wind uplift and rain protection.
- Patented 'Drip System' which allows for self drainage of rain water into the gutter.
- Extremely easy and quick to install.
- Requires no maintenance once installed.
- Can be fully customised.
- Extensive range of colours available.
- Removes the need to point the tiles with mortar.
